About

Three PhD positions are offered, see IoTSec.no/PhD. Application deadline 31. January 2016

The **IoTSec - Security in IoT for Smart Grids** initiative was established in 2015 to promote the development of a safe and secure Internet-of-Things (IoT)-enabled smart power grid infrastructure. The [Research Project](#) received funding from the [Research Council of Norway](#) (RCN) to contribute to a safe information society.
