Busstilbud Blindern-Kjeller 2014

UNIK setter opp buss for studenter fram og tilbake mellom UNIK og Blindern for alle forelesninger for de som ønsker det (det vil også være mulig i de fleste emner til å følge forelesningen via videokonferanse til Scheme@ifi eller andre konferanserom etter avtale).

Timeplan fra og med mandag 13. januar 2014 (merk liten endring fra høsten 2013: retur kl 12:00 fra UNIK, ikke 12:05):

Tidspunkt	Mandag	Tirsdag	Onsdag	Torsdag	Fredag
Ifi-UNIK 08:30	Ja	Ja	Ja	Ja	Ja
UNIK-Ifi 12:00	Ja	Ja	Ja	Ja	Ja
Ifi-UNIK 12:40	Nei	Ja	Ja	Ja	Nei
UNIK-Ifi 16:05	Nei	Ja	Ja	Ja	Nei

Timeplanen endres i takt med undervisningen, sjekk derfor timeplanen jevnlig for endringer.

Vi gjør oppmerksom på at bussen går i samkjøring med HiOA, og at vi vil få små marginer i forhold til tidspunktene. Det er derfor viktig å være på plass i tide.

Bussen går fra Ole Johan Dahls hus, Institutt for Informatikk (bussen snur på snuplassen rett utenfor Ole Johan Dahls hus).

UNIK4710 - Mobile Service Delivery

Abstract Personalised and context-aware (location, activity, ...) generation Web technologies.

The course links the mobile and Internet service world context information (e.g. location, people, activity). The situations where Mobile Semantic Service Delivery is

Example 1: The way mobile advertisements are being your situation and your interest. - If you are running to be disturbed by anything else than the message that i

Example 2: Building communities in mind is independ to watch TV together. Let's enable chat and talk with i channel as me.

During the course we will develop some examples of services. Feel free to think about an example which fi

Discussion - Jan 29, 2014 #VPN

It would be great to watch the recorded lectures from UiO - but setting up the VPN connection by following the linked tutorial - resulted in no success. UiO will not allow me to connect to Unik.

Have anyone had any success with this?

Goal

- understand ontologies
- understand "rules, reasoning"
- get hands-on experience

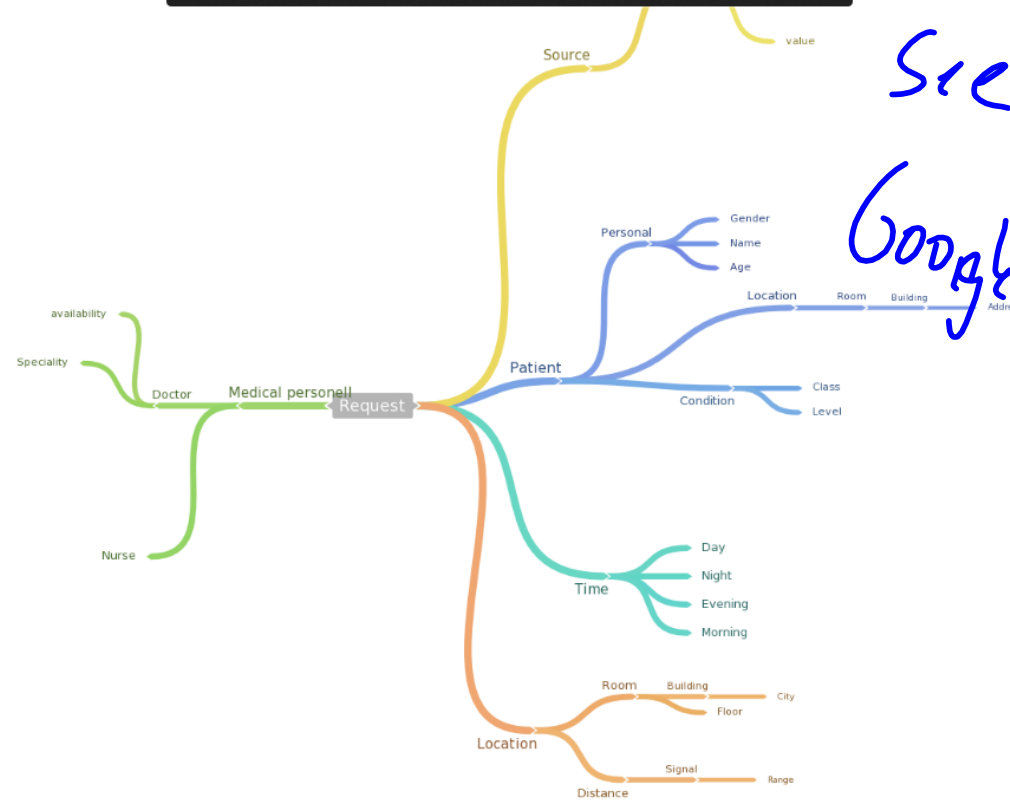

Public Screen

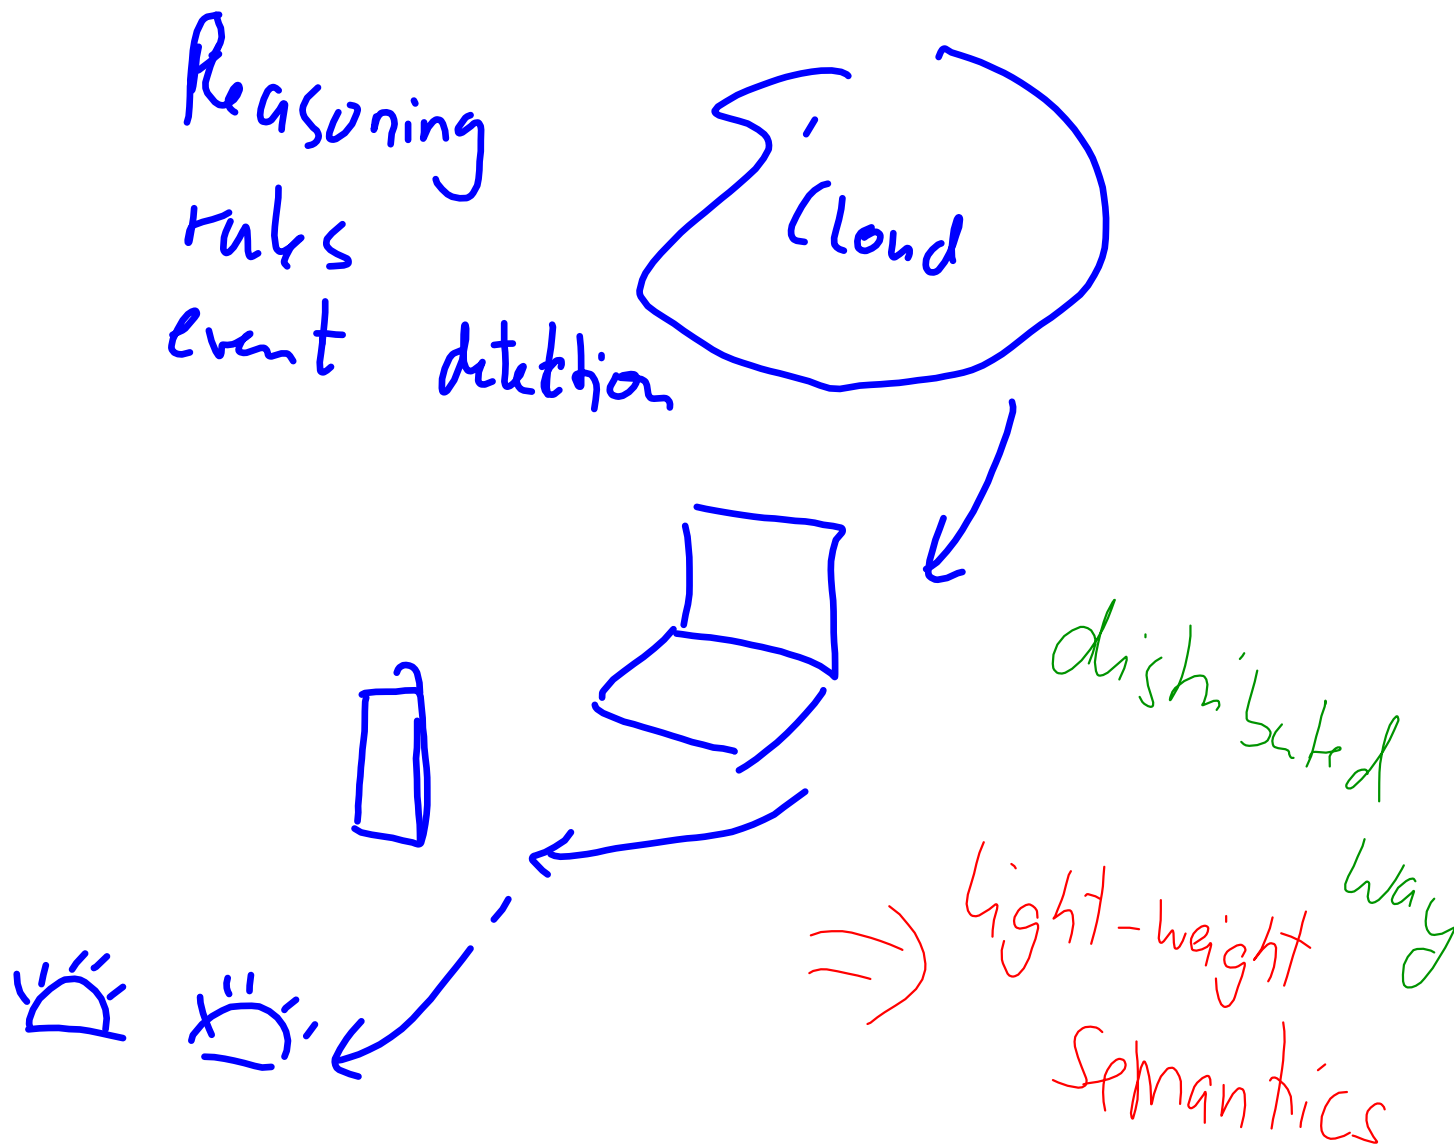

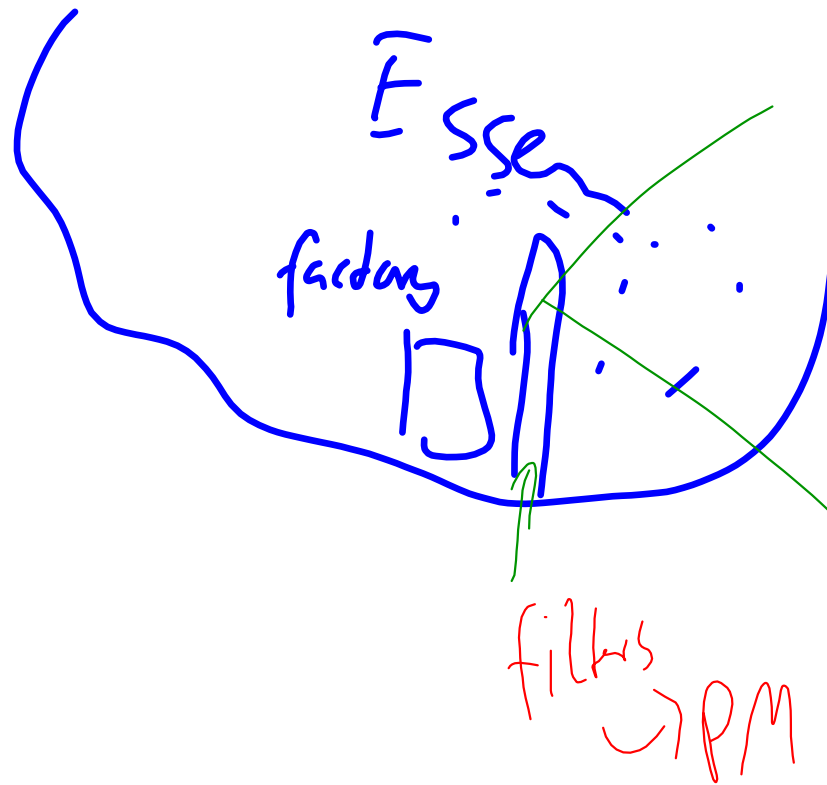

google.com er nå i fullskjerm.

Trykk ESC når som helst for å avslutte.

Pseudo-
krupp

Orienteering

New aspects: "follow your runner"

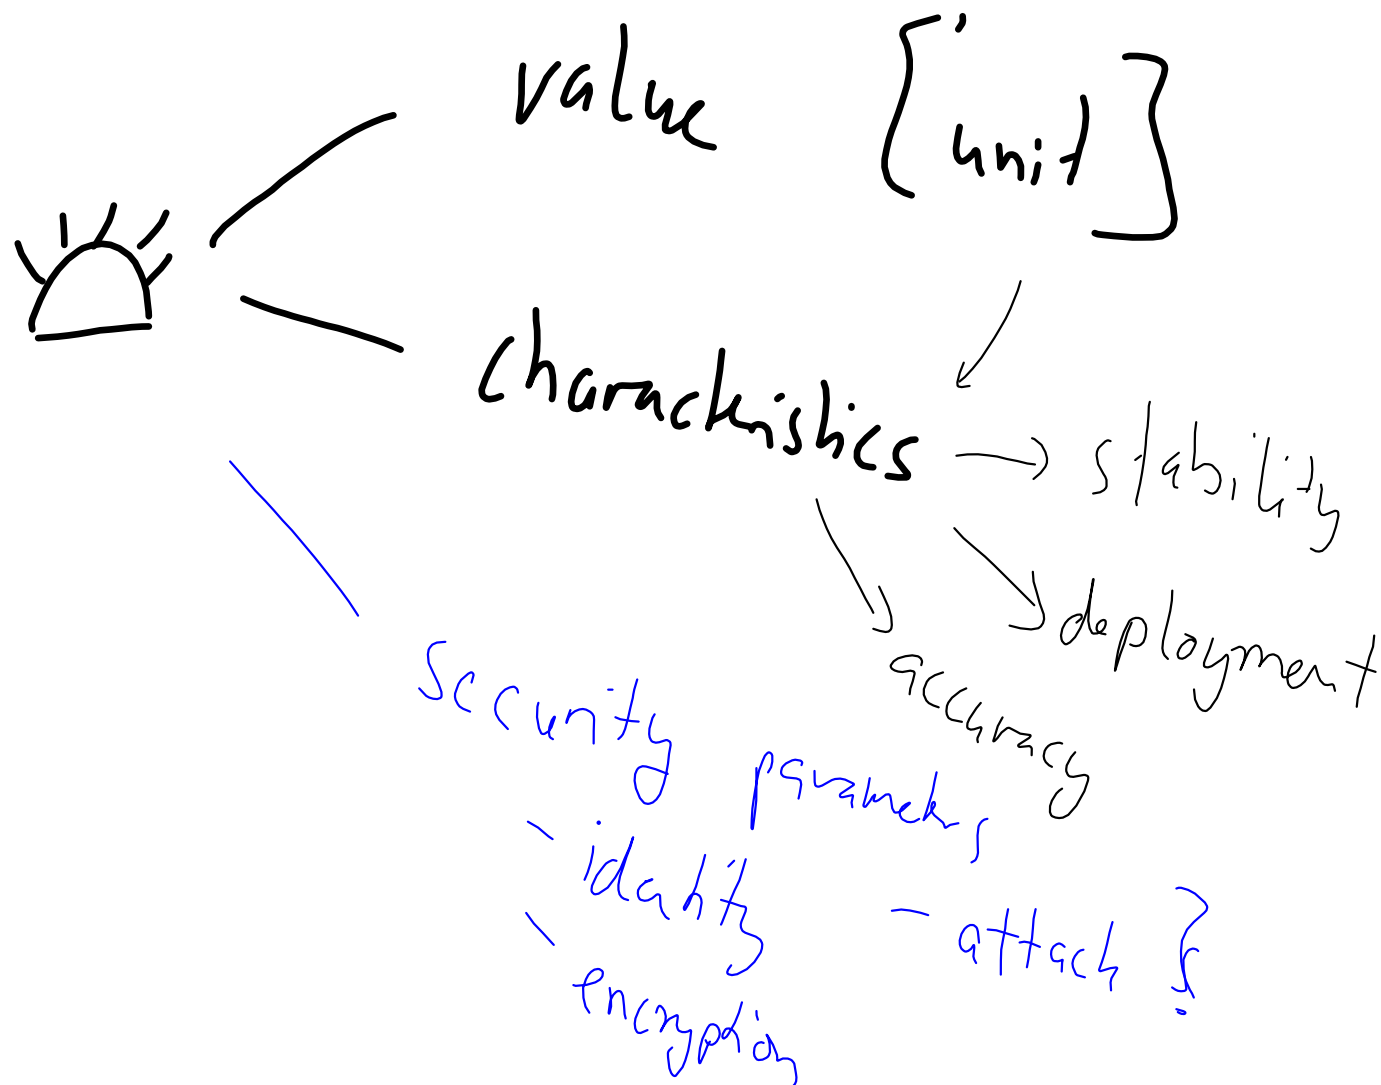

- family, club members
- "vote for camera"

Challenges

BYOD - F4OR
bring your own device follow your own
runner

- Camera only if "watched"
- GPS pos of runners
- voting systems for "which camera"
- focus on your preferences
- (hypermedia + SPQR, + PISA)

+ mobile

Any IT problems, e.g.

- streaming

- videos from lectures
